Summary

Software Engineer with 4+ years of experience in web development, specializing in React & Next.js. Certified by IBM, Meta, and Google in front-end & full-stack development. Skilled in developing scalable applications and using agile methodologies to meet deadlines, with a proven ability to collaborate across teams.

Experience

Full Stack Developer Intern

Bone Fix Metal Craft Inc.

Metro Manila, PH

Jan 2025 – April 2025

- Engineered and maintained a secure PHP-based web application module in collaboration with cross-functional teams and the project manager, delivering a web portal for doctors to access surgical metal product specifications and clinical application data.
- Strengthened software testing practices through unit testing, improving code reliability and maintainability.

Web Developer

D.R.A. Jewelry

Bulacan, PH

Sep 2024 – Dec 2024

- Designed and developed a mobile-first, fully responsive website using Next.js and Tailwind CSS, implemented SEO optimization best practices to improve organic search visibility, and integrated a private consultation scheduler—doubling online bookings.

Software Engineer

Syrincal Trading OPC

Bulacan, PH

Nov 2023 – Present

- Architected and led the development of a Next.js-based B2B ordering platform that unified supply chain, inventory management, and delivery tracking, doubling operational efficiency, reducing order processing time, and support 500+ daily operations —while conducting unit testing to ensure system reliability.

Social Media Manager

WeWhiten

Salt Lake, UT

Jun 2023 – Jun 2024

- Implemented focused outreach, campaigns and content strategies across social media platforms, increasing customer attraction by 30%, customer retention by 15% and doubling customer acquisition.

Education

Our Lady of Fatima University

Bachelor of Science in Information Technology

July 2025

Certificates

- IBM Front-End Developer
- Meta Front-End Developer
